

### **Milk powder floor display**

BAC-display customized the Milk powder floor display with the domestic client's request. We have more than 10 years of production work experience in the line of metal advertising display stand. We exported our products to more than 30 countries with strong technical support, good quality and services. Hope we can do something to help your products sales in your country. We will reply you in 24 hours after you send me the email.

This Milk powder floor display is putted in the Maternal and baby store to display the Milk powder, and feeding bottles products. It is accepted to improve this display rack into your company request. This metal milk powder floor display stand use the simple frame of the metal tube ,bending plate sheet of layers. The metal floor display has the advantage that it can be the long time used than cardboard materials. It has the four shelves. The distance of the shelves can be making by the height of your products cans. The digital printing logo is needed for the display outside. symmetrical structure of the two side frame to make the display easy assembled by anybody. The layers are snap-in side frame, not need screws. More than 2 year used. when you get a new advertising design, you can change the logo board. Folded packing make it much more safe when transport. The Main parameter information is as followed. Contact me if you have more question.
